Description of Project

Provide a project summary which includes:

- 1. The name of the company applying for grant funding that will lead and execute a project if awarded by the Department;*
- 2. The project's purpose, deliverables, and expected outcomes; and*
- 3. A description of the general tasks/activities during the project*

Proposed Budget

Provide a breakdown of direct costs associated with this project. For “Other” expenses, please provide justification in the box below.

Expense Category	Funds Requested
Personnel	
Equipment	
Supplies	
Travel	
Other	
TOTAL BUDGET	

Other expenses description and rationale:

Note: Only direct costs are eligible for grant funding. Direct costs are those costs that can be identified specifically with the development of vaccines against foreign animal diseases or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Indirect costs are those costs that cannot easily be directly attributed to the development of vaccines against foreign animal diseases. Those costs are often identified as general administration and general expenses such as accounting, overhead, and all other types of expenditures not attributed specifically to the proposed project.

Proposed Workplan and Timeline

Provide a detailed workplan and timeline including milestones and dates of anticipated achievement.

Description of how this project, technology, or platform will benefit Iowa producers and the overall agriculture community

Description of how this project, technology, or platform could be deployed in a foreign animal disease emergency response

Additional Documentation Required

When submitting your application, include as an attachment, documentation that establishes the following:

1. That the company applying for grant funding is based in Iowa
2. That the company applying for grant funding has a prior relationship with the United States Department of Agriculture including a collaboration with the USDA-Agricultural Research Service or by having a product registered with the USDA-Center for Veterinary Biologics

Optional Supporting Documentation

If applicable, please include any letters of support from external stakeholders as attachments when submitting your application.

Completed applications should be emailed to Vaccine@IowaAgriculture.gov along with all supporting documentation.

For questions, please contact Vaccine@IowaAgriculture.gov.
