- **8.8(1)** In order to renew a certificate of registration, each credentialed veterinary technician completes, triennially, at least 30 hours of continuing education in courses approved by the board. The credentialed veterinary technician has the responsibility for financing continuing education. These credit hours may be obtained by attending approved scientific seminars and meetings on the basis of one credit hour for each hour of attendance. Attendance at any board-approved national, state or regional meeting will be acceptable. Credit for qualified graduate college courses may be approved on the basis of multiplying each college credit hour by 10, to a maximum of 15 hours during any one triennial. A maximum of 15 hours during any one triennial may be achieved by the completion of approved distance education courses. A maximum of ten hours of continuing education during any one triennial license period may be achieved by completion of approved practice management courses.
- **8.8(2)** Each credentialed veterinary technician obtains the 30 credit hours between January 1 of the first year of the triennium and December 31 of third year of the triennium. Continuing education credits in excess of 30 hours for the triennium may be carried over to the next triennial period, but the total number of credits carried over cannot exceed 10 hours. If a recent graduate is credentialed during the first year of the triennium, the person will complete 20 hours of continuing education for the first certificate of registration renewal. If a recent graduate is credentialed during the second year of the triennium, the person will complete ten hours of continuing education for the first certificate of registration renewal. If a recent graduate is credentialed during the third year of the triennium, the person is exempt from meeting continuing education requirements for the first certificate of registration renewal. For the purpose of this rule, "recent graduate" means a person who has graduated from an accredited or approved veterinary technology program no more than three years prior to application for certification of registration.
- **8.**8(3) Completion of the continuing education will be reported to the secretary of the board of veterinary medicine on forms provided by the board by December 31 of the third year of the triennium.
- **8.8(4)** Upon request, the board may waive continuing education requirements for qualifying military service personnel or spouse as defined in 811—Chapter 15.
