Continuing Education – License Requirements

811—6.1(2)f: Submit evidence of having completed at least 60 hours of approved continuing education within the last three licensing years. New graduates and applicants within one year after the date of graduation are exempt from continuing education requirements for initial licensing. Applicants who apply more than one year but less than two years after the date of graduation need to complete at least 20 hours of approved continuing education. Applicants who apply more than two years but less than three years after the date of graduation need to complete at least 40 hours of approved continuing education. As used in this paragraph, "date of graduation" also includes the date of PAVE or ECFVG certification.

Continuing Education Necessary for a Veterinary Licensee

811—11.1(1): Within the last three licensing years, each licensee is to complete at least 60 hours of continuing education in courses approved by the board as a condition for license renewal. The licensee has financial responsibility for the cost of continuing education. These credit hours may be obtained by attending board-approved scientific or practice management seminars and meetings on the basis of one credit hour for each hour of attendance. Attendance at any approved national, state or regional meeting or RACE-approved meeting will be acceptable. One hour of credit may be approved for local meetings where a scientific paper is presented. Credit for qualified graduate college courses may be approved on the basis of multiplying each college credit hour by 10, to a maximum of 30 hours during any one triennial license period. A maximum of 30 hours during any one triennial license period of continuing education may be achieved by completion of approved distance education courses. A maximum of 20 hours of continuing education during any one triennial license period may be achieved by completion of approved practice management courses.

811—11.1(2): To qualify for license renewal, each licensee is to obtain the 60 credit hours between July 1 of the year the license was issued and June 30 of the following third year. Continuing education credits in excess of 60 hours for any three-year license period may be carried over to the next triennial license period, but the total number of credit hours carried over cannot exceed 20 hours.

811—11.1(3): A recent graduate is exempt from meeting continuing education requirements at the time of original licensure and for the first year of practice. For the purpose of this rule, "recent graduate" means a person who has graduated from an accredited or approved school of veterinary medicine, or received a certificate from the ECFVG or PAVE no more than three years prior to application for licensure. If a recent graduate is licensed during the first year of the triennial license period, the licensee needs to complete 40 hours of continuing education for the first license renewal. If a recent graduate is licensed during the second year of the triennial license period, the licensee needs to complete 20 hours of continuing education for the first license renewal. If a recent graduate is licensed during the third year of the triennial license period, the licensee is exempt from meeting continuing education requirements for the first license renewal.

811—11.1(4): Completion of the continuing education requirement will be reported to the secretary of the board, on a form provided by the board, at the time of license renewal. The form is to be signed by the licensee and be accompanied by renewal application and the proper renewal fee.

811—11.1(5): The board may waive continuing education requirements for qualifying military service personnel upon request.
