

APPLICATION FOR REINSPECTION

(Includes farm inspections and Bacteria count suspensions)

All of the violations listed on the last dairy farm inspection report or bacteria count suspension have been corrected. This is my application for re-inspection of my dairy facility for the purpose of reinstatement of my milk permit. The application for re-inspection should be e-mailed into our office at Deanna.Overton@iowaagriculture.gov. After our office receives the application the inspector will be at your farm within one week to inspect your farm. (2017 PMO, page 18, Reinstatement of Permits)
