

APPLICATION FOR REINSPECTION

(Includes Plant inspections and Bacteria/Coliform count suspensions)

All of the violations listed on the last dairy plant inspection report or bacteria/coliform count suspension have been corrected. This is my application for re-inspection of my dairy facility for the purpose of reinstatement of my plant permit. The application for re-inspection should be emailed into our office at Deanna.Overton@iowaagriculture.gov. After our office receives the application the inspector will be at your plant within one week to inspect your plant.
